

Timely Tip for January Gardeners:

January can be a busy month in your garden!

Calloway's Nursery is offering two **FREE** soil tests to every customer this month. Visit your nearest store in January and take advantage of this special offer. Fertilize with confidence when you know the exact needs of your soil.

Now is the time to prune fruit trees and grapevines. Shade trees and evergreen shrubs can be trimmed to maintain shape and to remove damaged or low lying branches. Do not top Crape Myrtles; only prune to remove damaged branches. Trim summer blooming shrubs and vines to tidy their appearance. Leave a smooth cut flush with the trunk or branch from which you pruned. Apply pruning paint to cuts larger than a pinkie to prevent diseases and insect infestations.

For more information, please join us for **FREE** in-store clinics regarding these topics. These clinics are held in every store.

Saturday, January 17th at 10:15 am-Techniques of Pruning

Come hear how and when to prune your plants. Check out the newest and best tools to get the job done!

Saturday, January 24th at 10:15 am-Preparing Your "Dirt"

Our experts will provide information on the necessary make-up of your soil and what all those numbers and letters mean! Keep your plants green, growing and blooming with the proper nutrition.
